Explanation Of Any Apparent Religious Connections

If your organization's name or project name contain any terms with religious connotations such as "mission", "church", "mosque", "synagogue", "Christian", "Jewish", "Muslim", etc. or the name of any specific religion or denomination, or if there might be any confusion at all as to whether or not you are a religious organization or affiliated with a religious organization in any way, please provide an explanation of your organization or project's religious connection or association with any religious organizations. Often we find that organizations with religious sounding names are in fact secular organizations with only historical connections to religious organizations. We do not make grants to religious organizations or to fund projects run by, or affiliated with, religious organizations.

Please answer this question if an uninvolved layperson might reasonably think that your

organization had any religious connections whatsoever. Err on the side of providing an explanation if there is any doubt in your mind.
